

Offham Herd

Pedigree Sussex Cattle

SIGNET Recorded CHECs Accredited High Health Status

Offham Lady 15th
Female of the Year 2017

Supreme Beef Champion Heathfield Show 2017

The Offham Herd was established in 1991 with the aim of producing excellent cattle capable of thriving on poor SSSI grasslands.

Our stock is SIGNET recorded to ensure that only animals with top genetic merit enter the herd.

All cows calve outdoors in the Spring and Autumn so there is a strong focus on good tempered, easy calving stock which require minimum intervention.

Polled bloodlines: all 2022 born calves are sired by a polled bull.

We are accredited clear of Johne's, Lepto, IBR and BVD.
